

Applied Data Science:

Subtitle TK

DATA SCIENCE BOOTCAMP

TK Learn to solve real-world problems with quick and powerful analytic tools.

TK. You keep hearing about big data and know you should be doing something, but what? We'll teach you how find real data sets from major companies like Best Buy, Kiva, The New York Times. We'll teach you how to use R, an open-source and industry standard tool. Most importantly, we'll teach you how to transform data into meaningful and actionable insights, answers, and opportunities. No statistics background required.

Our specialty tracks of **Finance**, **Healthcare**, **Marketing**, and **General Interest** will deliver exercises and discussion that's relevant to you.

4-Week Online Boot Camp

Saturdays and Sundays, 9 am - TK pm

Regular price: ~~\$1200~~

Introductory Offier: After Dec 19, 2015 \$699

Early Bird (ends 12/19/2014): just \$499

Why take this course?

Use cases TK

- Sea melius labores oportere no, bonorum sanctus efficiendi eam no. His feugait copiosae omittantur in. Novum utamu.
- Sea melius labores oportere no, bonorum sanctus efficiendi eam no. His feugait copiosae omittantur in. Novum utamu.
- Sea melius labores oportere no, bonorum sanctus efficiendi eam no. His feugait copiosae omittantur in. Novum utamu.

Just bring your curiosity.

No math or programming background is required for this introduction course. We'll present the material in real, human language and explain concepts in easy-to-understand (but always academically sound) ways.

Walk away with relevant answers and tangible experience.

By the end of the course, you'll obtain an understanding of the tools data scientists use to solve problems, and some basic methods for extracting information from large data sets. Complete the exercises to get a beautiful signed certificate to show off your new skills.

\$499 early bird discount ends Dec. 19
